## ROLE OF SCHOOL DISTRICT ADMINISTRATION

In this series of the board policy manual, the board defines the role and the employment of school district administrators. Policies in the 400 Series, "Employees," also apply to administrators unless a more specific policy exists in the 300 Series, "Administration."

School district administrators have been given a great opportunity and responsibility to manage the school district, to provide educational leadership, and to implement the educational philosophy of the school district. They are responsible for the day-to-day operations of the school district. In carrying out these operations, the administrators are guided by board policies, the law, the needs of the students, and the wishes of the citizens in the school district community.

It is the responsibility of the administrators to implement and enforce the policies of the board, to oversee employees, to monitor educational issues confronting the school district, and to inform the board about school district operations.

While the board holds the superintendent ultimately responsible for these duties, the principals are more directly responsible for educational results, for the administration of the school facilities and for the employees.

The board and the administration will work together to share information and decisions under the management team concept.

## MANAGEMENT

The board and the administrators will work together in making decisions and setting goals for the school district. This effort is designed to obtain, share, and use information to solve problems, make decisions, and formulate school district policies and regulations.

It is the responsibility of each administrator to fully participate in the management of the school district by investigating, analyzing, and expressing their views on issues. Those board members or administrators with special expertise or knowledge of an issue may be called upon to provide information. Each board member and administrator will support the decisions reached on the issues confronting the school district.

The board is responsible for making the final decision in matters pertaining to the school district.

It is the responsibility of the superintendent to develop guidelines for cooperative decision-making.

SUPERINTENDENT QUALIFICATIONS, RECRUITMENT, APPOINTMENT

The board will employ a superintendent to serve as the chief executive officer of the board, to conduct the daily operations of the school district, and to implement board policy with the power and duties prescribed by the board and the law.

The board will consider applicants that meet or exceed the standards set by the Iowa Department of Education and the qualifications established in the job description for the superintendent position. In employing a superintendent, the board will consider the qualifications, credentials and records of the applicants without regard to race, color, creed, religion, sex, national origin, age, sexual orientation, gender identity or disability. In keeping with the law, however, the board will consider the veteran status of the applicants. The board will look closely at the training, experience, skill and demonstrated competence of qualified applicants in making its final decision.

In choosing a superintendent, the board will also consider the school district's educational philosophy, financial situation, organizational structure, education programs, and other factors deemed relevant by the board.

The board may contract for assistance in the search for a superintendent.

SUPERINTENDENT CONTRACT AND CONTRACT NONRENEWAL

The length of the contract for employment between the superintendent and the board is determined by the board. The contract will begin on July 1 and end on June 30. The contract will state the terms of employment and shall not exceed three years.

The first three consecutive years of a contract issued to a newly employed superintendent is considered a probationary period. The probationary period may be extended for an additional year upon the consent of the superintendent. In the event of termination of a probationary or nonprobationary contract, the board will afford the superintendent appropriate due process, as required by law. The superintendent and board may mutually agree to terminate the superintendent's contract at any time.

It is the responsibility of the board to provide the contract for the superintendent. The board may issue a temporary and nonrenewable contract in accordance with law.

If the superintendent wishes to resign, to be released from a contract, or to retire, the superintendent must comply with applicable law and board policies.

**NOTE: May 15 is the date established by Iowa law for notice of board action to consider termination of an administrator's contract. The board may select an earlier date but not a later date.**

## SUPERINTENDENT EVALUATION

The board will conduct an ongoing evaluation of the superintendent's skills, abilities, and competence. At a minimum, the board will formally evaluate the superintendent on an annual basis. The goal of the superintendent's formal evaluation is to ensure the education program for the students is carried out, promote growth in effective administrative leadership, clarify the superintendent's role, clarify the immediate priorities of the board, and develop a working relationship between the board and the superintendent.

The superintendent will be an educational leader who promotes the success of all students by:

- Facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community.
- Advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development.
- Ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment.
- Collaborating with families and community members, responding to diverse community interests and needs and mobilizing community resources.
- Acting with integrity, fairness and in an ethical manner.
- Understanding the profile of the community, and responding to and influencing the larger political, social, economic, legal and cultural context.

The formal evaluation will be based upon the following principles:

- The evaluation criteria will be in writing, clearly stated and mutually agreed upon by the board and the superintendent. The criteria will be related to the job description and the school district's goals;
- At a minimum, the evaluation process will be conducted annually at a time agreed upon;
- Each board member will have an opportunity to individually evaluate the superintendent, and these individual evaluations will be compiled into an overall evaluation by the entire board;
- The superintendent will conduct a self-evaluation prior to discussing the board's evaluation, and the board as a whole will discuss its evaluation with the superintendent;
- The board may discuss its evaluation of the superintendent in closed session upon a request from the superintendent and if the board determines its discussion in open session will needlessly and irreparably injure the superintendent's reputation; and,
- The individual evaluation by each board member, if individual board members so desire, will not be reviewed by the superintendent. Board members are encouraged to communicate their criticisms and concerns to the superintendent in the closed session. The board president will develop a written summary of the individual evaluations, including both the strengths and the weaknesses of the superintendent, and place it in the superintendent's personnel file to be incorporated into the next cycle of evaluations.

This policy supports and does not preclude the ongoing, informal evaluation of the superintendent's skills, abilities and competence.

It is within the discretion of the board to pay annual fees for professional organizations and activities.

## ADMINISTRATOR CODE OF ETHICS

Administrators, as part of the educational leadership in the school district community, represent the views of the school district. Their actions, verbal and nonverbal, reflect the attitude and the beliefs of the school district. Therefore, administrators will conduct themselves professionally and in a manner fitting to their position.

Each administrator will follow the code of ethics stated in this policy. Failure to act in accordance with this code of ethics or in a professional manner, in the judgment of the board, will be grounds for discipline up to, and including, discharge.

The professional school administrator:

- Makes the education and well-being of students the fundamental value of all decision making.
- Fulfills all professional duties with honesty and integrity and always acts in a trustworthy and responsible manner.
- Supports the principle of due process and protects the civil and human rights of all individuals.
- Implements local, state and national laws.
- Advises the school board and implements the board's policies and administrative rules and regulations.
- Pursues appropriate measures to correct those laws, policies, and regulations that are not consistent with sound educational goals or that are not in the best interest of children.
- Avoids using his/her position for personal gain through political, social, religious, economic or other influences.
- Accepts academic degrees or professional certification only from accredited institutions.
- Maintains the standards and seeks to improve the effectiveness of the profession through research and continuing professional development.
- Honors all contracts until fulfillment, release or dissolution mutually agreed upon by all parties.
- Accepts responsibility and accountability for one's own actions and behaviors.
- Commits to serving others above self.

## COMMUNICATION CHANNELS

Questions and problems are resolved at the lowest organizational level nearest to the complaint. School employees are responsible for conferring with their immediate supervisor on questions and concerns. Students and other members of the school district community will confer with a licensed employee and then with the principal on questions and concerns.

If resolution is not possible by any of the above, individuals may bring it to the attention of the superintendent within five (5) school days of their discussion with the principal. If there is no resolution or plan for resolution by the superintendent within ten (10) school days of the individual's discussion with the superintendent, the individual may ask to have the question or problem placed on the board agenda. It is within the board's discretion whether to hear the concern.

It will first be the responsibility of the administrators to resolve questions and problems raised by the employees and the students they supervise and by other members of the school district community.

***NOTE: There should be limits on the length of time an individual has to pursue complaints in order to bring the issue to closure. The board needs to determine the appropriate number of days, five for example, and place that in the blanks. There are also limits similar to this in Policy 502.4, and the board may want to use the same number of days in that policy to ensure consistency.***
